

Grand Vista

Client - Toll Brothers

Firm - Greey Pickett Landscape Planning and Design

Grand Vista was a project I worked on at Greey Pickett Planning and Landscape Design in Scottsdale Arizona. The project is planned for up to 15,000 housing units and is the largest project undertaken by Toll Brothers to date. While working at Greey Pickett I was involved in the project doing area calculations, golf course routing, and numerous alterations. The project included a downtown district, 3 single family neighborhood villages, a private active adult community with public golf course and a private golf course community.

Contents:

Village Plan – Done in AutoCAD and Photoshop

Master Plan – Done in AutoCAD and Photoshop

Private Golf Community – (Hand Rendered Background by others) line work done in AutoCAD, sheet and labels done in Photoshop

Street Sections – Done in Photoshop to scale
